

A vast amount of work now remains to be done which the introduction of new lines will greatly aid in accomplishing. The result is that the very large capital expenditures required to be made in order to meet the transportation needs of the country are being met by the introduction of new lines. WALTER D. HINES, Director General of Railroads.

Work more—
Produce more—
Save more—

But we can't continue increasing our production unless we continue increasing our railroad facilities.

The farms, mines and factories cannot increase their output beyond the capacity of the railroads to haul their products.

Railroads are now near the peak of their carrying capacity.

Without railroad expansion—more engines, more cars, more tracks, more terminals—there can be little increase in production.

But this country of ours is going to keep right on growing—and the railroads must grow with it.

To command in the investment markets the flow of new capital to expand railroad facilities—and so increase production—there must be public confidence in the future earning power of railroads.

The nation's business can grow only as fast as the railroads grow.

WHAT CREAMERIES ARE PAYING FOR CREAM

The following prices were paid by Tennessee's co-operative creameries for butterfat, delivered during October:

Franklin County Co-operative Creamery	71 cents
Chapel Hill Co-operative Creamery	74 "
Robertson County Co-operative Creamery	72 "
Wilson County Co-operative Creamery	74 "
Bedford County Co-operative Creamery	75 "
Rutherford County Co-operative Creamery	75 "

The co-operative creamery insures the highest possible price for butterfat, fair and honest treatment and absolute satisfaction to the patron. If cream from as many as 400 cows is available in your community, why not investigate the possibility of organizing a co-operative creamery by seeing your county agent?

WALT MASON "ON THE DAIRY COW"

The dairy cow's a thing of charm; she lifts the mortgage from the farm, and makes the farmer's life more sweet, and sets him down on easy street. Where'er the dairy cow is seen, a country prosperous is seen, and dairymen, in joyful ranks, are packing bullion to the banks. Why pling along the old sad way, producing nutmegs, corn and hay, and putting up a bankrupt wall if one year's crop should chance to fail? There is a better method now—the method of the dairy cow; this critter always earns her keep, and piles up riches while you sleep, and pays the taxes and the rents; and here in Tennessee, gents, we have the climate and the feed, and all conditions dairies need. So let us boost the dairy cow, which beats the old breech-loading plow; the Holstein and the Jersey, too, as smooth as any cow in view. Let's talk up dairies, milk and cream, the safest money making scheme.

WHOLE SYSTEM RUN-DOWN

Quick Improvement Is Noted After A Few Doses of ZIRON Iron Tonic.

Increase in appetite, the coming back of strength, disappearance of headaches and other ills, are a few of the many good results obtained from the use of a new remedy (Ziron Iron Tonic).

Mr. Sim Grimsley, of Cordele, Ga., tried Ziron and has this to say: "When I began to take Ziron, it seemed that my whole system was run-down, but soon after I began to take Ziron, I could eat more each day and would feel a great deal better. Ever since it seems that my health has been improving, as I seldom have the headache or feel bad the least bit."

Ziron is a new scientific combination of pure medicinal inorganic iron, combined with phosphorus, the active principle of nux vomica and the hypophosphites of lime and soda. It will help to add more red corpuscles to your blood, resulting in more color in your cheeks—more vitality in your system.

CHINESE WOMEN STUDY HEALTH

Three Doctors Return From America to Begin Active Health Campaign Among Women.

ALL AGENCIES COMBINE.

American Y. W. C. A. Will Support Women's Part of Chinese Health Campaign as Part of World Service Program.

As a result of the Y. W. C. A. International Conference of Women Physicians, held during September and October, Chinese women are to have a far-reaching health program.

Dr. Ida Kahn, Dr. Li Bi-Chen and Dr. Dan, three of China's half hundred women physicians, who attended this

DR. IDA KAHN URGES CHINESE WOMEN TO WORK.

conference, are to take an active part in promoting this health program for women which will be the share of the Y. W. C. A. in the big health movement in China.

The funds for establishing these health centers, for demonstrations of how to care for babies, for health lectures for the women, for babies' dispensaries and for a general educational campaign, will be raised by the American Y. W. C. A. as part of its program of world service for women and girls in 1920.

Dr. Ida Kahn, in a recent appeal to modern Chinese women said, "Let our women of education in Peking and elsewhere gather themselves together to work for the schools, Red Cross and Y. W. C. A., and everything else which bespeaks the betterment of the country, instead of staying at home to play poker and 'sparrow,' and going out to attend endless dinners, tea parties and dances."

"Let us rally our forces and help the ship of state to move safely. One person cannot accomplish much, but one or two hundred millions of women can work wonders. Let us go back to a more Spartan-like simplicity of living and let us build up social service until every city in China is sanitary, every section of the town has its proper schools, and every child, whether boy or girl, is sent to such schools. True social service brings democracy in its train, and we who are citizens of a new republic can help to make it truly great by preaching and living democracy all the time. Why not learn to do our household duties, deeming it effeminate to be waited upon by maid and slave girls all the time?"

"The status of women in China, while leaving much to be desired, still is quite hopeful when we consider that she is just emerging into the sisterhood of the nations. Our men can depend upon us to bear the burdens of the day, for nowhere is there a more industrious, diligent and persevering womanhood than in China."

Dr. Kahn is lecturing in this country on the needs of her fellow country women, in the interests of the Y. W. C. A. Educational Campaign which plans to acquaint people with all phases of Y. W. C. A. work in the United States, South America, China, Japan, India and Europe. This educational campaign will be followed by an active effort to raise the \$3,000,000 needed for service for women throughout the world.

CHINESE WOMEN HAVE FINANCIAL ABILITY.

They Carried Y. W. C. A. Campaign "Over the Top."

Much has been said about the honesty and skill of the Chinese business man. The world has neglected to mention the financial ability of Chinese women. They proved this ability in the last financial campaign of the Y. W. C. A. in Tientsin.

Ordinarily three weeks are allowed in which to raise the budget by subscription after the finance committee has decided upon the sum necessary to carry on the work of the coming year. The Tientsin campaign was carried on entirely by Chinese women and broke all records by going over the top in ten days with a large surplus over the budget.
